## 6. DÉTAILS DE CERTAINS NOUVEAUX ÉLÉMENTS:

### Is\_shipping\_free

boolean : 1 to force shipping to be free

### Promotion

Attribut « type » [

- Sales: to add a promotion of type Sales, those are managed by our teams to match legal dates.
- Destocking: to add a promotion of type Destocking
- GoodDeal: to add a promotion of type Good Deal
- Batch: to add a promotion of type Batch. This one requires that you provide a number of items of the same offer that must be in the client's cart to trigger the promotion
- FlashSale: to add a promotion of type Flash Sale. This one is activated just by adding the offer to the cart, no specific triggers.
- FreeShipping: to add a promotion of type Free Shipping, in case you only want adherents to have free shipping or for a certain period for example. ]

### Éléments

Name	Description	Type	Occurrence
sales_period_reference	Mandatory for Sales	string	0-1
promotion_uid	Personal reference just for you	string, alphanumérique, 50 car. max	0-1
starts_at	Promotion's start date	dateTime	1-1
ends_at	Promotion's end date	dateTime	1-1
discount_type	Type of discount	'discount_type'	0-1
discount_value	Discount's value	decimal	0-1
triggers	Rules that will trigger the promotion	'triggers'	0-1

### Discount\_type

- percentage: discount\_value will be used as a percentage.
- fixed: discount\_value will be used as an amount in euros

### Triggers

Name	Description	Type	Occurrence
trigger_cart	Mandatory for Batch	'trigger_cart'	0-1
trigger_promotion_code	Code that the client will have to give to trigger promotion	string, alphanumérique, 50 caractères max	0-1
trigger_customer_type	Client segmentation	'customer_type'	1-1

### Trigger\_cart

Attribut : « type » [

- MinSellerAmount: Total amount of your offers in the client's cart (decimal)
- MinSellerQuantity: Total quantity of your offers in the client's cart (integer)
